Summer Camps:

Weekly summer camps are offered for those age 5 – 12. The young athletes are grouped in ages where there is ability to learn and play at like levels. Older participants in the Day Camps may be invited to join the full program age groups to give them the experience of doing workout sessions with those in their same age groups. All participants will learn basic boating safety, technical skills, team building and social skills. The participants will have swim and game times as well as on-water sessions to learn the basics of age appropriate sprint canoe & sprint kayaking. Cold, windy or heavy rainy days where the conditions are unsafe to go on the water the participants will engage in off-water or indoor activities. All participants must wear a size appropriate PFD (provided by parent/guardian) while on the water. Sunscreen applications will be encouraged throughout the day. Please ensure your child has sunscreen with them. If they require assistance applying the sunscreen our staff will help but we prefer to use the spray-on type if possible.
